

ECZEMA ON SCALP ITCHED AND BURNED

Would Fester and Come to Head.
Could Not Sleep. Hair Fell Out.
Cuticura Soap and Ointment
Cured in Two Weeks.

R. F. D. No. 2, Seymour, Mo.—"My scalp broke out with fine pimples as the start. They itched and burned so much that I was compelled to scratch them and they would fester and come to a head and break out again. The trouble was attended by such burning and itching I could not sleep, also when I sweat it burned the same. My hair fell out gradually and the scalp kept rough and dry with itching and burning. After about two years the pimples broke out between my shoulders. My clothing irritated them. I was troubled with that eczema five or six years.

"I tried everything that was recommended without any benefit until I used the Cuticura Soap and Ointment according to directions, and Cuticura Soap and Ointment cured me sound and well in two weeks." (Signed) S. L. Killian, Nov. 22, 1912.

For pimples and blackheads the following is the most effective and economical treatment: Gently wash the affected parts with Cuticura Ointment, on the end of the finger, but do not rub. Wash off the Cuticura Ointment in five minutes with Cuticura Soap and hot water and continue bathing for some minutes. This treatment is best on rising and retiring. At other times use Cuticura Soap freely for the toilet and bath, to assist in preventing inflammation, irritation and clogging of the pores. Sold everywhere. Liberal sample of each mailed free, with 32-p. Skin Book. Address post-card "Cuticura, Dept. T, Boston."

Men who shave and shampoo with Cuticura Soap will find it best for skin and scalp.

WIRELESS ALARM SYSTEM INSTALLED

New York, Dec. 24.—Control of the fire department's fleet of eleven vessels by wireless is the latest extension of the fire alarm system of New York City, according to announcement by Fire Commissioner Johnson. The fireboat James Duane, first of the fleet to be equipped with the apparatus yesterday responded to orders from headquarters to respond to an alarm and while proceeding at full speed she got another order to return to her station. In less than two

minutes a reply was received that the vessel was putting about.

WOULD ENFORCE TENNIS RULES. Philadelphia, Pa., Dec. 24.—Walter F. Johnson, who was a member of the American tennis team which won the Davis cup competition in England last summer, in discussing the changes in the tennis rules proposed by the English authorities, said last night that he believes the rules regarding service and foot faults should be rigidly enforced. He had been taught, he said, to keep both feet on or back of the service line until the ball is struck.

"A man who adheres closely to the back court game rarely has a foot fault called," said Johnson. "There are, however, many men of national reputation who would suffer if the rules already on the statute books were rigidly enforced. Rigid rules will in no way embarrass the man who has a faultless service."

BE PRETTY! TURN GRAY HAIR DARK

Try Grandmother's old Favorite
Recipe of Sage Tea
and Sulphur.

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray; also ends dandruff, itching scalp and stops falling hair. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome. Nowadays, by asking at any drug store for "Wyeth's Sage and Sulphur Hair Remedy," you will get a large bottle of this famous old recipe for about 50 cents.

Don't stay gray! Try it! No one can possibly tell that you darkened your hair, as it does so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, thick and glossy. Agents, A. R. McIntyre.

SENATOR STONE ILL.—Washington, Dec. 24.—Senator Stone of Missouri, stricken with a stroke a few days ago, and for whom fears were felt, was reported today by his physicians to be out of danger.

SALTS FINE FOR ACHING KIDNEYS

We eat too much meat which
clogs kidneys, then the
Back hurts.

Most folks forget that the kidneys, like the bowels, get sluggish and clogged and need a flushing occasionally, else we have backache and dull misery in the kidney region, severe headaches, rheumatic twinges, torpid liver, acid stomach, sleeplessness and all sorts of bladder disorders.

You simply must keep your kidneys active and clean, and the moment you feel an ache or pain in the kidney region, get about four ounces of Jad Salts from any good drug store here, take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and is harmless to flush clogged kidneys and stimulate them to normal activity. It also neutralizes the acids in the urine so it no longer irritates, thus ending bladder disorders.

Jad Salts is harmless; inexpensive; makes a delightful effervescent lithia water drink which everybody should take now and then to keep their kidneys clean, thus avoiding serious complications.

A well-known local druggist says he sells lots of Jad Salts to folks who believe in overcoming kidney trouble while it is only trouble. Advertisement.

REBELS ENTERTAIN AMERICAN OFFICERS

Cullacian, Sinaloa, Dec. 24.—After being entertained here at a banquet and ball, Admiral Cowles, commanding the United States Pacific fleet, Captain W. W. Gimer of the cruiser Pittsburgh, and five other American naval officers, left today for the coast. Felipe Riveras, Constitutional governor of Sinaloa, General Turbe, insurgent commander in the state, and other Mexican officers and officials, probably will accept the admiral's invitation to visit the American ships today.

At the banquet last night, Admiral Cowles spoke in answer to an address in English by Colonel Eduardo Hay, chief of staff to General Turbe. The American admiral declared that "jingoism" practically did not exist in the United States and never had existed to any extent. He said the United States wished Mexico to settle her own difficulties and expressed the hope that the Mexican difficulties would be regulated promptly. The admiral also expressed good feeling for the Mexican people.

The speech was applauded vigorously. As far as was made known, Admiral Cowles' visit was of a purely social nature. He and his party were sent to the coast on Governor Riveras' special train which brought them here.

SURPRISES MANY IN OGDEN

"The QUICK action of simple buckthorn bark, glycerine, etc., as mixed in Adler's-ka, the remedy which became famous by curing appendicitis, is surprising Ogdren people. Many have found that this simple remedy drains so much foul matter from the system that a SINGLE DOSE relieves constipation, sour stomach and gas on the stomach almost IMMEDIATELY. Adler's-ka is the most thorough bowel cleanser ever sold. A. R. McIntyre, Druggist, 2421 Wash. Ave. Advertisement.

AMERICAN POWERFUL RIVALS OF ENGLISH

New Orleans, La., Dec. 24.—Americans have set up a powerful competition against the English race for South American business. Sir Lord Murray of Elbank, here today on his way from Colombia, Ecuador, and Costa Rica, where he discussed contractors, recently criticised in this country, in the interest of S. Pearson Sons of London.

The competition was to be expected, said Lord Murray and he regarded it as the legitimate procedure of rival business men.

"What I do object to," said Lord Murray, "is the report that has gained more or less currency that the Pearsons are hostile to American interests as a whole. That is not true. We have extensive business associations in the United States."

ORPHAN IS ADOPTED.—Provo, Utah, Dec. 23.—Richard Knight, a 3-year-old orphan, who has been in the care of Mr. and Mrs. J.

THO JILTED, SHE'S NOT HEART-BROKEN

Mrs. Matteo Sandona.

Within a few months after bringing suit for breach of promise against Captain William Woodus Greene, commander of the Japanese liner Chiyo Maru, Miss Gertrude MacFarlane, famous beauty and prominent in social circles in San Francisco and Hawaii, has just been married to Matteo Sandona, the well-known portrait painter.

The breach of promise suit never came to trial, the captain compromising by paying his jilted fiancée \$7,000. He married another girl.

William Knight since infancy, has been legally adopted by Mr. and Mrs. Knight, who have no other children.

WOULD CHANGE NAME OF "MIDLAND TRAIL"

Salt Lake, Dec. 25.—Delegates from Nevada, Colorado and Utah will meet at the Commercial club of Salt Lake January 5 for the purpose of uniting in an effort to have the name of the Midland trail changed to the Lincoln highway through these three states.

Secretary of State Matson arranged the meeting yesterday and Governor Spry will appoint delegates from this state in the near future. A. W. Henderson of Colorado Springs has already arranged for the appointment of delegates from Colorado and some will shortly be named for Nevada.

TEACHING CHILDREN TO AVOID ACCIDENTS

The children are gathered in the schoolroom, Brooklyn, listening to a lecturer, who, with a pointer and charts, discourses upon the dangers of the city street and shows how to avoid them. When he is through he presents each child with a safety button as a reminder of his advice.

Howard, Mabel and Robby remain after the other children to ask a few additional questions. After school Bobby lives up to the lesson by notifying the police of a live wire he discovers on the car track. He is praised by the crowd on the scene for his thoughtfulness.

Through Howard's carelessness, little Mabel narrowly escapes death when she falls in front of a street car and is saved by the safety device on the car. She is crossing the track with Howard. Both are on roller skates. Running in front of a north-bound car, they suddenly discover that a car coming south is heading them off. Howard jumps to safety, but his sister is not so quick and falls before the car. An automobile coming south on the avenue stalls, forcing a wagon to cut in to the left between the elevated railroad posts on to the car track in order to pass. Just as the wagon is hauled on to the track the car crashed into it, crumpling it to pieces and crushing the driver beneath the wreckage, all due to thoughtlessness.

Some boys are playing ball on a side street. Howard, the catcher, misses the ball, which bounds away across the car track on the avenue. He runs after it blindly and suddenly realizes that he is between two cars. Bewildered he leaps for safety, jumping in front of a speeding automobile, which runs over him. Howard is crippled for life. After many days of suffering he is taken from his bed in the hospital for a ride in a roller chair. He sees boys and girls playing tag and leapfrog on the hospital lawn, and, with tear-filled eyes, realizes the terrible price of his thoughtlessness.—Electric Railway Journal.

NEW COMPANY WILL MINE AT GOLCONDA

It is the firm conviction of a number of Salt Lake mining men interested in the Golconda, Nev., district that once famous producing camp will in the near future develop into a second Goldfield. The recovery Gold Mines company has just been

formed to develop the south end of extension of the old Kramer gold mine on zone Kramer hill which was recently reported sold for \$350,000. The new purchasers of the Kramer took possession immediately and J. H. Player expects to soon have a force of men putting the old mine in shape for production on no small scale, according to Hugh H. Tarbet of this city.

The Recovery people have a shaft down 100 feet. A drift has started off on the 50 foot level. Here a vein has been cut showing 12 feet of \$8 free milling gold ore with small silver values. The Utah men connected with the Recovery property say that with a little mill they think the company can be put on a paying basis in a short time.

CONTACT BUSY ON ANNUAL WORK

H. M. Shields, one of the Utah mining men heavily interested in the camp of Contact, Nev., came in from there this week with encouraging word for the big copper section. Mr. Shields controls the Copper Shields group of claims which is situated inside and near the extreme westerly point of the great copper horseshoe. He has developed the ore to a depth of about 150 feet. One of the principal veins opened is three feet wide showing copper values of 12 to 15 per cent. The ore also carries some silver and gold. This mineralized contact is between the porphyry and the granite.

There are many of the properties in camp now active as it is the time of the year when the big assessment bee is on in full buzzing force.

CENTER CANNOT JUMP FOR BALL IS NEW RULING.

The state high school and college basketball coaches are having a hard time to settle disputes over the rules for 1913 and 1914. Only a few changes have been made, but probably the most important is that the two centers cannot catch the ball, when jumping after the referee has tossed it up. According to a letter from the rules committee this rule is made clear by the following: "No player is jumping for the ball after it has been tossed up by the referee, is allowed to recover the ball until it has been played by one of his team mates or one of his opponents."

Another change in the ruling is that the players in jumping should keep one hand back of them and face each other. This rule prevents any rough work on the jump and gives an equal chance to both players.

The above changes are the most important and some of the high school coaches have already started to teach their men to follow out these instructions, but there are still a few holdouts to the old ideas. The latter must get in the swim at once or suffer the ruling of the officials, who now know the true interpretations.

OLD NAU AUG MINE YIELDS \$70 ORE

Conditions at the old Nau Aug mine, twelve miles from Hadley, which property was recently taken over by the Big Four Exploration company of this city, are decidedly encouraging, according to the story which Morris P. Kirk and K. C. Woolley, two of the principal owners, brought down from Idaho yesterday.

They have some beautiful specimens of steel galena from the recent

Strike on the seventh level. This ore runs \$70 to \$74 a ton and carries on an average 80 ounces silver and 72 to 75 per cent lead.

The strike was made in a winze which is being sunk from a level 700 feet below the old workings. The winze is now down 28 feet. The rich streak is averaging 12 inches in width between two permanent granite walls. The vein has a practically vertical pitch and it is looking extremely promising.

Another property in that vicinity which is making good is the Plugoff group. Here from a 75-foot shaft three carloads of ore have lately been shipped. The last car covered 33 tons, and brought \$2700 net smelter returns. This ore runs \$78 a ton and is a lead carbonate. It carries as much as 78 per cent lead.

\$100 Reward, \$100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address F. J. CHENEY & CO., Toledo, O. Sold by all Druggists, 75c.
